Summary

I am a dedicated Software Developer with hands-on experience in full-stack web development. Proficient in HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, TypeScript, and Angular. I excel in creating efficient, user-friendly applications and have a strong passion for continuous learning and innovation in technology.

Projects

- **Employee management system:** - It's a project that I have done with various technologies, and its main purpose is that a user can register, login, and do crud operations(CREATE,READ,UPDATE,DELETE) and the data will be stored in a database.
 - **Hospital management system:** - It's a landing page. Applied media queries and flexible grids to make the page responsive for all screen sizes.
 - **Blog:** -I have built a static blog using Angular and TypeScript with local storage data.
 - **Task Management:** -Build a task management system using Angular and Typescript with Node.js backend crud operations.
-

Experience

Software Developer Intern

Stackmod innovations · Thiruvananthapuram, Kerala
